About Us:

We have a complete production line covering all the steps of OCTG finishing from coupling threading to final marking and packing able to provide a wide range of tubing and casing both in API and premium connections.

## Threading Equipment

- Two dedicated CNC machines for coupling's threading
- Wet magnetic powders inspection unit for couplings
- Phosphating baths for couplings
- IN-SITU 2000 CNC machines for PIN threading
- PIN swaging unit
- PIN phosphating
- Make-up unit with automatic torque / turns control and data recording
- Automatic length and weight measurement equipment
- External protective coating and dot matrix marking installation

CNC Machines for Coupling

Band Saw

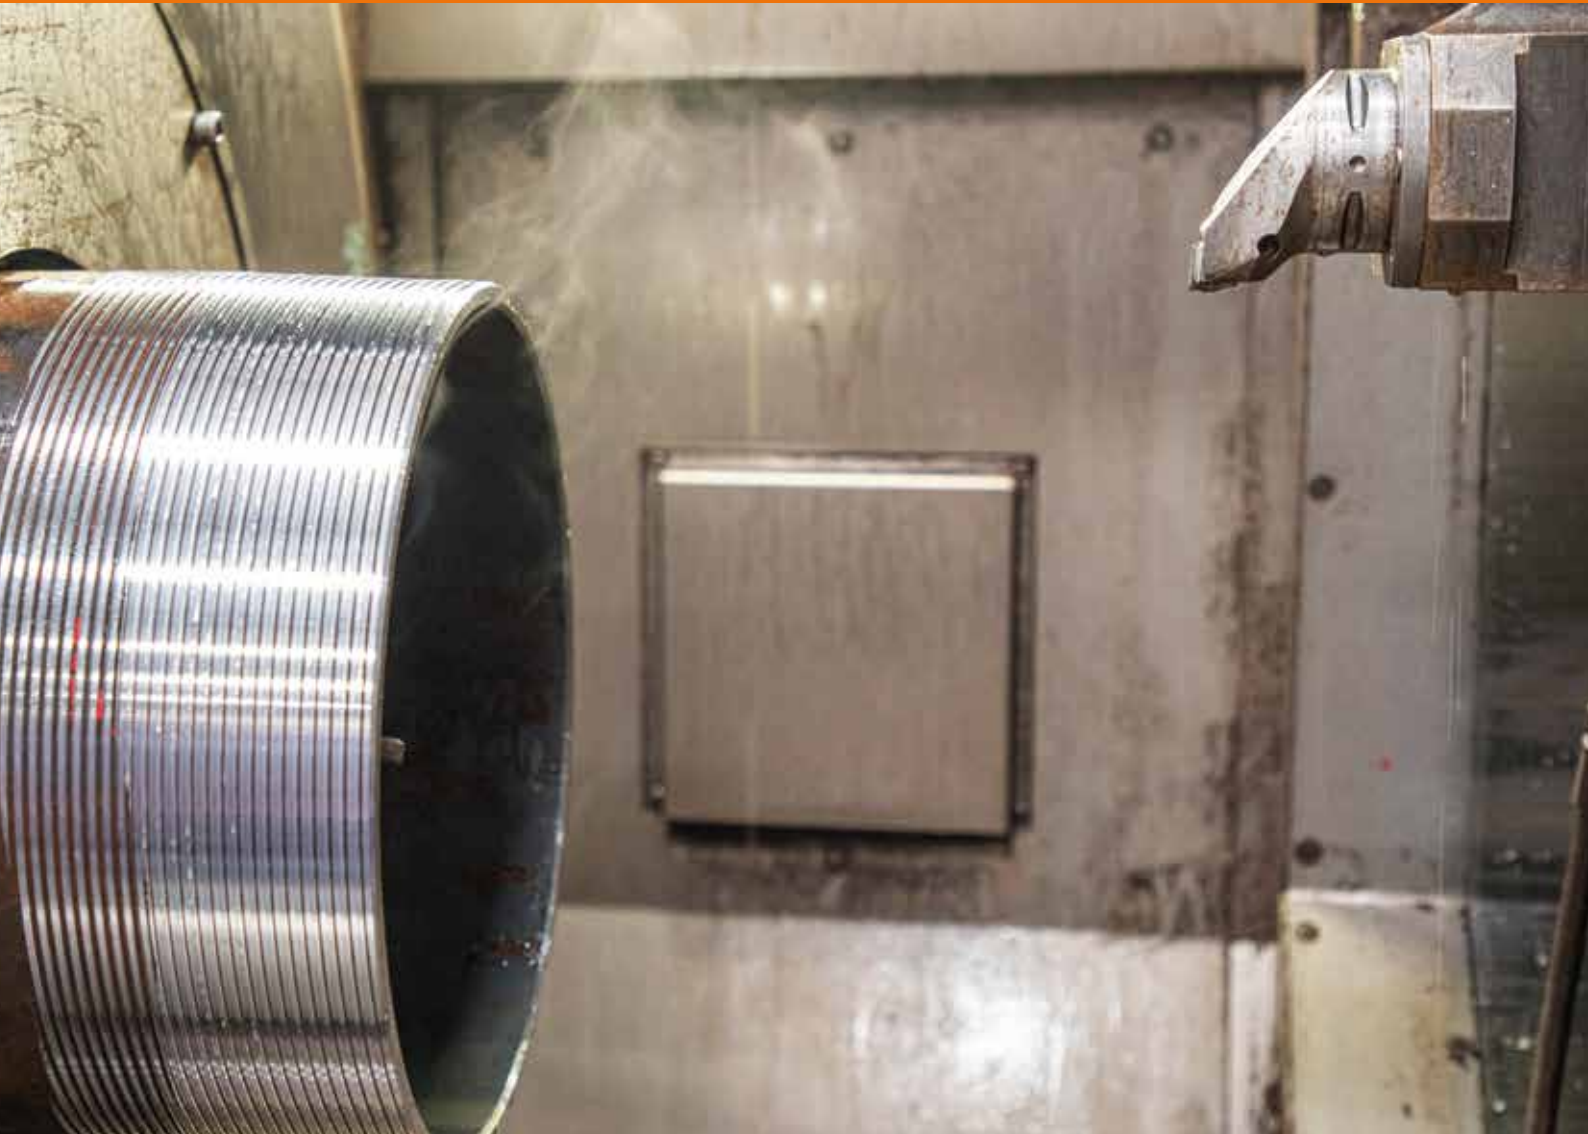

Phosphating Bath

MPI

Make-up Unit with automatic torque

## Premium Connection

- Premium connection for casing and tubing
- Phantom connection for casing and tubing
- Integral premium connection for upset tubing

## Services Overview

### Supply Chain Management

- We offer fully integrated S.C.M.
- We work closely with our client, analyzing their drilling schedule.
- Pipe is stored in one of our stocking locations and dispatched according to our clients requirements.
- The pipe is maintained and inspected on a regular basis, and where necessary, repair work is done.

## Supply Casing and Tubing

- Seamless and ERW Casing; Size range: up to 20"; Length Range: 1,2 or 3; Grades : JK55, N/LBD, C/T95, P110, Q125 and V150; Threads: All API connections, together with premium connection such as Fox etc.
- Seamless Tubing; Size Range: up to 2/1 4\*; Length range: 1,2 or 3; Grades: JK55, N/LBD, C/T95, P110, Q125 and V150; Threads: API threads, as well as premium threads such as Hydrii PH6,etc.

## Coupling

couplings for premium connections allow us to satisfy any urgent request for spare couplings from our customers.

## Repairs

We can do repairs for tubing and casing with premium and API connections.

## Accessories

Based on client's requirements, we are able to produce a wide range of pup-joints, cross-overs and other accessories.
